

In reviewing this application, it was noted that Claim 5, at Line 1, erroneously recites "stator" twice. To correct this typographical error, the second occurrence of "stator" has been changed to "rotor."

Early examination on the merits is respectfully solicited.

Respectfully submitted,

In the Claims:

Please rewrite Claim 5 to read as follows:

5. (Amended) A motor, comprising:

an outer case containing a stator and a [stator] rotor, said stator fixed on said casing and having a shaft, said rotor disposed around said shaft to rotate about said shaft, said rotor having a commutator;

a brush having a first end fixedly electrically coupled to said stator and a second end upwardly extended toward said rotor; and

a curved bending portion formed on said second end of said brush and having a contact line parallel to said commutator to be electrically contact with said commutator.
